

Astronaut

Fascinating Facts

A spacecraft can get to the moon in about 3 days from earth. The first moon landing was on the 20th July 1969. American astronauts were the first people to walk on the moon. The lunar module took the astronauts down to the moon while the Apollo 11 space rocket stayed in space.

The moon has less gravity than the earth and it looks like the astronauts are floating as they are walking.

The first man to walk on the moon was Neil Armstrong
