

# Roll a Roman Soldier

You need to cut out the soldier parts ready for play. Players then take turns rolling the die and picking the parts and placing them on the soldier. If you roll a 1 you can put a helmet on, a 2 gives the head etc. If you roll a number and you already have that part, you do nothing. Play then continues until the soldier is complete. Whoever finishes their soldier first wins!

# Footballers to Cut Out
