

HOW TO DRAW A TRIREME

Follow the 6 easy steps to draw a Greek trireme!

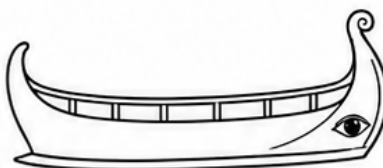

1

Draw the hull of the ship with a curved prow and raised stern.

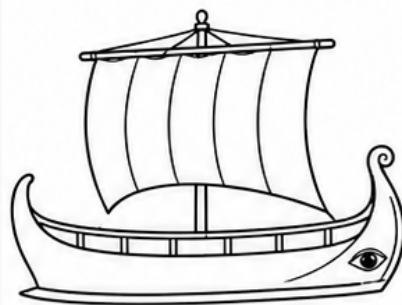

2

Add the upper deck and the eye on the prow.

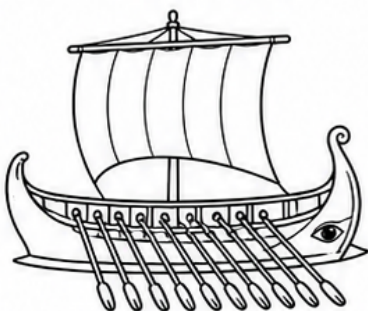

3

Draw the mast and the square sail.

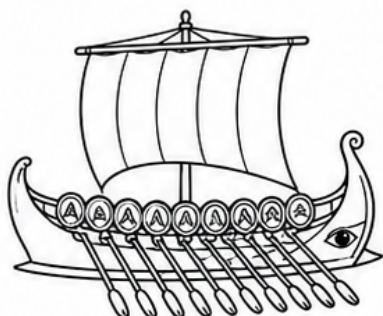

4

Add the oars. Triremes had three levels of oars on each side.

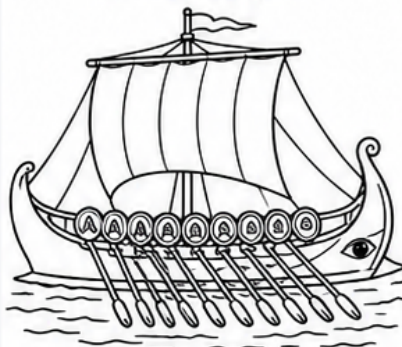

5

Add the shields along the side.

6

Add the details: flag, rigging lines and water. Your trireme is complete!

DID YOU KNOW?

The trireme was a fast and powerful warship used by the Ancient Greeks.

It had three rows of oars on each side, which were rowed by about 170 rowers!

Triremes were key to Greek victories at sea.
